

MV Isolation Switch

GN19-12 Indoor isolation switch

- GN19-12 indoor MV isolation switch series MV switch equipment used for rated voltage 10kV, AC 50Hz and below power system, equipped with CS6-1 type manual operating mechanism, open, close the circuit in the case of no load, voltage. There are derivatives such as anti pollution, high prototype and added charged display device type, etc.

General

MV Isolation Switch

GN19-12 Indoor isolation switch

Technical data

Model	Rated voltage (kV)	Maximum voltage (kV)	Maximum current (A)	4S thermal stability current (kV)	Dynamic stability current (kV)
GN19-10(C)400-12.5	10	11.5	400	12.5	31.5
GN19-10(C)630-20	10	11.5	630	20	50
GN19-10(C)1000-31.5	10	11.5	1000	31.5	80
GN19-10(C)1250-40	10	11.5	1250	40	100

Overall and mounting dimensions(mm)
