

# JBK Machine Tool Control Transformer

### Sphere of application

JBK series machine tool control transformer for AC 50~60 Hz, input voltage less than 660V circuit, is used as the control power supply in all kinds of machine tools, machinery and equipment, local lighting and light power.

With imported materials and advanced technology of manufacturing, this series of transformers can be a replacement of other controller for a working, reliable, low prwer consumption, small size, wiring safety, wide applicability and so on.

### Type designation

Item Dimension Model	Mounting dimension		Shape dimension			Install bore dimension
	A	C	Bmax	Dmax	E <sub>max</sub>	K×J
JBK1、2、3、4-40	56±0.5	51±2	78	70	86	4.8×9
JBK1、2、3、4-63	56±0.5	51±2	78	70	86	4.8×9
JBK1、2、3、4-100	64±0.5	67±2	85	85	93	4.8×9
JBK1、2、3、4-160	84±0.5	72±2	96	90	103	5.8×11
JBK1、2、3、4-250	84±0.5	86±2	96	105	103	5.8×11
JBK1、2、3、4-400	90±0.5	90±2	120	113	123	7×13
JBK1、2、3、4-630	122±0.5	86±2	150	118	145	7×13
JBK1、2、3、4-800	122±0.5	100±2	150	128	145	7×13
JBK1、2、3、4-1000	127±0.5	152±2	155	205	145	7×12卧式
JBK1、2、3、4-1600	140±0.5	176±2	180	230	160	7×12卧式
JBK1、2、3、4-2500	173±0.5	200±2	205	260	175	7×12卧式
