

## Industrial equipment and switches

# LW26 Universal Changeover Switch

### General

LW26 Series Universal changeover switch mainly used for AC 50/60Hz, rated voltage up to 380V and below, DC voltage up to 220V, rated current to 160A electrical circuit for manually infrequent making or breaking the circuit for the purposes of control and conversion ,can also controlling three-phase asynchronous motors and circuit directly as the purposes of master control and measurement. The products widely used, instead of the various national switch, can be used as the circuit control switch, measuring equipment switches, motor control switches and the master control switch, and welding machine switch and so on.

standard: IEC60947-3

### Operating conditions

1. The ambient air temperature does not exceed +40°C, the average temperature within 24 hours and not more than +35°C.The ambient air temperature is not lower than -5°C.
2. Installation site altitude does not exceed 2000m
3. The relative humidity of the air no more than 50% when the maximum temperature is +40°C and at a lower temperature allows a higher relative humidity, such as when temperature is 20°C the relative humidity reaches 90%.
4. Special measures should be taken for condensation occasionally due to temperature changes.

### Type designation

For use to master control

LW26	Rated thermal current	Poles	Station
LW26	20	2P	2
Universal changeover switch	10:10A 20:20A 25:25A 32:32A 63:63A 125:125A 160:160A 200:200A 315:315A 400:400A	2P 3P 4P 5P 6P	2 3 4 5 6 7
			V: Voltage meter A: Ammeter

Note: If there are special wiring requirements, please provide the wiring diagram or contact us

## Industrial equipment and switches

# LW26 Universal Changeover Switch

### General

The following table shows the main technical parameters of the transfer switch

Table 2

Model	Ith A	Ui V	Ue V	AC-21A		AC-22A		AC-23A		AC-2		AC-3		AC-4		AC-15 DC-13
